## Acer aspire one 722 specs

Acer laptop has updated the aspire One 722 to supply a lot of performance. during this review, we are going to verify whether or not, Acer has achieved its goal with the inclusion of the AMD C-60 hardware and Radeon HD 6290 GPU and can additionally examine what alternative enhancements Acer has created.The Acer aspire One 722 is an eleven.6-inch netbook and is an progressive improvement over the first subnotebook category. the foremost obvious variations between the aspire One 722 and alternative subnotebooks square measure the reduced options and perceptibly less powerful elements of the One 722. Our take a look at sample is that the Acer aspire 722-C62kk. With a retail worth of concerning 350 monetary unit (\$429 USD), the netbook options the AMD C-60 hardware, ATI Radeon HD 6290 graphics card, 2 GB RAM, a 320 GB hard disc, and a comparatively massive forty eight Wh battery. Windows seven Home Premium 64-bit is the software system. For the aspire One 722-C62kk, Acer replaced the dual-core AMD C-50 hardware with a lot of powerful AMD C-60 dual-core hardware which may dynamically overclock its base one GHz clock to one.3 GHz. another advance is that the AMD Radeon HD 6290 graphics card which may additionally dynamic overclock to four hundred Mc and guarantees improved performance. The mono memory controller, shared graphics memory, and thermal style power (TDP) stay unchanged. The system includes one a pair of GB memory module that ought to be decent for a lot of applications, those that work with massive image files or alternative memory-intensive programs might value more highly to expand the system to its most memory size of four GB by either substitution the enclosed 2 GB module or adding a further 2 GB module.acer aspire one 722 Specifications Max. Processor} You can surf the internet smoothly. Very fast compared to the ASUS Eee PC 1201N that I used. Graphics processor}It works fine with Youtube and MPEG movies. Expandability} so far,i dont have any problem with the memory storage and speed,i think there is no need to upgrade. Battery} it can last up to 3 to 4 hours usage. Keyboard} it's easy to use,both key arrangement and key touch are good. If you continue using it for hours, you may find some faults, but I don't use this PC for long hours. Display} it has a roughly features display (the screen is a bit reddish colour but can adjust it using the brightness settings)Pros:small fast reliable usefulCons:small screen a bit short battery life not enough USB port slot and doesn't have HDMI port 5/19/2012 Acer , Review , Specification 1 comment Email This BlogThis! Share to Twitter Share to Facebook Priceprice.com will discontinue all services as of June 30, 2021 (scheduled).Thank you for using our services.Page 2 I bought it before I went on a trip in January 2012 because I needed it at the destination. I now use the iPad 2012 model as my second machine which is convenient to carry around! [Design] I had no choice as there was only espresso black available when I bought it. The high quality looking top panel is nice but it is easy to get fingerprints left on it which is bothersome. [Processing speed] For my uses that do not include gaming or video editing, I think it is good enough. [Graphics performance]] just wanted something for Blu-ray disks, so this device is more than sufficient. [Extensibility] It has 3 USB2.0 ports and is compatible with Bluetooth, so I have a Bluetooth mouse, Bluetooth headset, USB memory and a Blu-ray drive connected. [Ease of use] Like I stated in other reviews, the Bluetooth connection does not automatically turn on, so it's inconvenient that I have to go to settings every time. [Portability] It's small, it's good. Carrying the power source and the device itself is inconvenient, so I put it in Sanwa Supply's BAG-INMB3R. [Battery] When I use it, I always have it connected to the AC adapter, so I don't know. It seems like its self-discharge isn't different from average notebooks. [LCD] I have an anti-reflective panel, so I see everything even below a fluorescent lamp. I feel like the viewing angle is narrow, I change the tilt angle according to the desk's height. [Overall] This device has a potential as a sub-machine, but not for main usage. The webcam is sufficient for webchats and screen transitions. Display Size 11.6 inch, 1366 x 768 ( HD ) Graphics Card AMD Radeon HD 6290 The Aspire ONE 722-0658 is a 11 inch chromebook i.e. this computer is very light and portable. For today the Aspire ONE 722-0658 price in USA is \$179.97. The 11 inch screen of the laptop will be enough for reading and browsing the Web but some people may experience discomfort. The laptop has rather sharp for laptops picture quality and great 1366x768 resolution. It will allow you to fully enjoy working at the computer. The Aspire ONE 722-0658 uses an average Dual-Core AMD C-60 1 GHz CPU with 1 GHz clock speed. As the CPU uses two cores it will be better at performing multiple tasks at once. To get really amazing performance you will need a laptop with Quad-Core CPU like Acer Aspire R 11 R3-131T-P0KR. The 4 GB of memory is minimum capacity that will be enough to handle the workload of the moderate user. This model has an average sized 320 GB HDD. Hard drives have a low prices but they are significantly slower than SSD and Hybrid drives. Compare tech specs of this model to its rivals to find out what notebook has better processor, video card, screen and battery life. That means that SpecsPRO can help you to select the best laptop for now easily! Just check the list of Acer Aspire ONE 722-0658 comparison to its rivals and look for the notebook with the most powerful specs. It is very important that you watch a few Acer Aspire ONE 722-0658 video tests and reviews from Youtube. Videos are the easiest way to receive full info about laptop's specs and performance which will help you to make a right decision in your purchase. SpecsPRO offers you to get acquainted with useful Acer Aspire ONE 722-0658 user reviews and tests by CNET, TechRadar and other experts. They can be very useful during the process of selecting a new laptop. If you already own the notebook please share your opinion and rate it. Acer Aspire ONE 722-0658 rating will help greatly other users.Have you already bought this laptop?Rate Acer Aspire ONE 722-0658 to help other customers! AO722-C62BB (BLUE)AO722-C62KK (BLACK) The 11.6" Aspire One 722 is sensationally designed to deliver amazing HD visual experiences wherever you go. Anytime, anywhere connectivity plus an eco-friendly platform round out this netbook and make it ideal for your highly mobile digital lifestyle. The AMD C-60 processor brings you faster computing and accelerated online HD video. Enjoy smooth-playing Internet clips, movies and more on the HD display, rendered perfectly by ATI Radeon™ HD 6290 graphics. The latest standards are all supported, including Microsoft® DirectX® 11 and 1080p video output via HDMI® for big-screen viewing with family and friends. Plus, a multi-in-1 card reader eases media sharing via Secure Digital™ and MultiMediaCard™ formats. Sleek and stylish in Aquamarine, Diamond Black or Burgundy Red, the cover features a smoothly textured wave design with a comforting feel and sensational visual appeal. Inside, the soft matte finish on the palm rest area precludes fingerprints and smudges, and the full-size keyboard and multi-gesture touchpad enable enhanced navigation. At just 1" thin and 1.35 kg, the Aspire One 722 is supremely mobile, and the slim Acer MiniGo adapter is 40% lighter than before as well. The Acer Crystal Eye webcam enhances Skype™, MSN Online Messenger and other applications for worldwide face-to-face chatting. Acer Video Conference Manager improves video quality and real-time sharing of photos, documents and more. Wi-Fi® and Fast Ethernet deliver reliable connectivity wherever there's a hotspot or home network, and Bluetooth® 3.0+HS quickly transfers data between multiple devices without cables or wires so you can share your life freely. The Aspire One 722 is a friend of the earth, proudly in compliance with important green directives: ENERGY STAR® 5.0 – a Certified Energy Efficient Product conserves energy and fights climate change; WEEE -- Waste Electrical and Electronic Equipment for reuse and recycling; RoHS -- Restriction of Hazardous Substances reduces e-waste and sustains a greener planet; Mercury Free -- the display and entire platform are mercury-free, reducing hazardous substance production.Specifications: Operating System Genuine Windows® 7 Home Premium Processor ManufacturerAMD Processor ModelC-60 Processor Speed1 GHz with Turbo Core Overclocking to 1.33GHz Processor CoreDual-core Cache1 MB 64-bit ProcessingYes Chipset ManufacturerAMD Chipset ModelA50M Standard Memory4 GB Memory TechnologyDDR3 SDRAM Memory StandardDDR3-1066/PC3-8500 Number of Total Memory Slots1 Memory Card ReaderYes Memory Card SupportMemory StickMemory Stick PROSecure Digital (SD) CardxD-Picture CardMultiMediaCard (MMC) Hard Drive Capacity500 GB Hard Drive InterfaceSerial ATA Hard Drive RPM5400 Screen Size29.5 cm (11.6") Display Screen TypeActive Matrix TFT Colour LCD Display Screen TechnologyCineCrystal Aspect Ratio16:9 Backlight TechnologyLED HDCP SupportYes Graphics Controller ManufacturerAMD Graphics Memory TechnologyDDR3 SDRAM Graphics Memory AccessibilityShared Wi-FiYes Wi-Fi StandardIEEE 802.11b/g/n Ethernet TechnologyFast Ethernet BluetoothYes Bluetooth StandardBluetooth 3.0 WebcamYes MicrophoneYes Finger Print ReaderNo HDMIYes Total Number of USB Ports3 Number of USB 2.0 Ports3 VGAYes Network (RJ-45)Yes Operating SystemGenuine Windows® 7 Home Premium Operating System Architecture64-bit Software IncludedMicrosoft® Office Starter: reduced-functionality Word and Excel® only, with advertising.
